

## **AMENDMENTS TO THE CLAIMS**

This listing of claims will replace all prior versions, and listings, of claims in the application:

### **Listing of Claims:**

1. - 189. (Canceled)

190. (New) An assembly comprising:

a fenestration unit that permits ventilation therethrough; and,

insect screening in the fenestration unit;

the insect screening having elements defining openings with a first dimension

and a second dimension;

the first dimension or the second dimension being 0.06 inch or less;

the elements having a diameter of 0.007 inch or less; and

the insect screening having a reflectance of light of 0.04 or less.

191. (New) The assembly of claim 190 wherein:

the first dimension or the second dimension being 0.05 inch or less.

192. (New) The assembly of claim 190 wherein:

the first dimension or the second dimension being 0.04 inch or less.

193. (New) The assembly of claim 190 wherein:

the elements having a diameter less than 0.006 inch.

194. (New) The assembly of claim 190 wherein:  
the elements having a diameter of 0.005 inch or less.
195. (New) The assembly of claim 190 wherein:  
the insect screening having a reflectance of light of 0.03 or less.
196. (New) The assembly of claim 190 wherein:  
the insect screening having a reflectance of light of 0.02 or less.
197. (New) The assembly of claim 190 wherein:  
the first dimension or the second dimension being 0.05 inch or less; and  
the insect screening having a reflectance of light of 0.03 or less.
198. (New) The assembly of claim 190 wherein:  
the first dimension or the second dimension being 0.05 inch or less; and  
the insect screening having a reflectance of light of 0.02 or less.
199. (New) The assembly of claim 190 wherein:  
the first dimension or the second dimension being 0.04 inch or less; and  
the insect screening having a reflectance of light of 0.03 or less.
200. (New) The assembly of claim 190 wherein:

the first dimension or the second dimension being 0.04 inch or less; and  
the insect screening having a reflectance of light of 0.02 or less.

201. (New) The assembly of claim 190 wherein:

the first dimension or the second dimension being 0.05 inch or less;  
the elements having a diameter less than 0.006 inch; and  
the insect screening having a reflectance of light of 0.03 or less.

202. (New) The assembly of claim 190 wherein:

the first dimension or the second dimension being 0.05 inch or less; and  
the elements having a diameter less than 0.006 inch.

203. (New) The assembly of claim 190 wherein:

the first dimension or the second dimension being 0.05 inch or less;  
the elements having a diameter less than 0.006 inch; and  
the insect screening having a reflectance of light of 0.02 or less.

204. (New) The assembly of claim 190 wherein:

the elements having a diameter less than 0.006 inch; and  
the insect screening having a reflectance of light of 0.03 or less.

205. (New) The assembly of claim 190 wherein:

the elements having a diameter less than 0.006 inch; and

the insect screening having a reflectance of light of 0.02 or less.

206. (New) The assembly of claim 190 wherein:  
the elements having a diameter of 0.005 inch or less; and  
the insect screening having a reflectance of light of 0.03 or less.
207. (New) The assembly of claim 190 wherein:  
the elements having a diameter of 0.005 inch or less; and  
the insect screening having a reflectance of light of 0.02 or less.
208. (New) The assembly of claim 190 wherein:  
the first dimension or the second dimension being 0.05 inch or less; and  
the elements having a diameter of 0.005 inch or less.
209. (New) The assembly of claim 190 wherein:  
the first dimension or the second dimension being 0.05 inch or less;  
the elements having a diameter of 0.005 inch or less; and  
the insect screening having a reflectance of light of 0.03 or less.
210. (New) The assembly of claim 190 wherein:  
the first dimension or the second dimension being 0.05 inch or less;  
the elements having a diameter of 0.005 inch or less; and  
the insect screening having a reflectance of light of 0.02 or less.

211. (New) The assembly of claim 190 wherein:  
the first dimension or the second dimension being 0.04 inch or less; and  
the elements having a diameter less than 0.006 inch.
212. (New) The assembly of claim 190 wherein:  
the first dimension or the second dimension being 0.04 inch or less;  
the elements having a diameter less than 0.006 inch; and  
the insect screening having a reflectance of light of 0.03 or less.
213. (New) The assembly of claim 190 wherein:  
the first dimension or the second dimension being 0.04 inch or less;  
the elements having a diameter less than 0.006 inch; and  
the insect screening having a reflectance of light of 0.02 or less.
214. (New) The assembly of claim 190 wherein:  
the first dimension or the second dimension being 0.04 inch or less; and  
the elements having a diameter of 0.005 inch or less.
215. (New) The assembly of claim 190 wherein:  
the first dimension or the second dimension being 0.04 inch or less;  
the elements having a diameter of 0.005 inch or less; and  
the insect screening having a reflectance of light of 0.03 or less.

216. (New) The assembly of claim 190 wherein:  
the first dimension or the second dimension being 0.04 inch or less;  
the elements having a diameter of 0.005 inch or less; and  
the insect screening having a reflectance of light of 0.02 or less.
217. (New) The assembly of claim 190 wherein the elements are glass fibers, metal, metals, or polymers.
218. (New) The assembly of claim 190 wherein the elements include a coating.
219. (New) A method of screening insects comprising:  
providing insect screening formed of crossing elements, the elements defining openings with a first dimension and a second dimension; the first dimension or the second dimension being 0.06 inch or less; the elements having a diameter of 0.007 inch or less; the insect screening having a reflectance of light of 0.04 or less; and  
mounting the insect screening in a fenestration unit, the fenestration unit permitting ventilation therethrough.
220. (New) The method of claim 219 wherein:  
the first dimension or the second dimension being 0.05 inch or less.
221. (New) The method of claim 219 wherein:

the first dimension or the second dimension being 0.04 inch or less.

222. (New) The method of claim 219 wherein:  
the elements having a diameter less than 0.006 inch.
223. (New) The method of claim 219 wherein:  
the elements having a diameter of 0.005 inch or less.
224. (New) The method of claim 219 wherein:  
the insect screening having a reflectance of light of 0.03 or less.
225. (New) The method of claim 219 wherein:  
the insect screening having a reflectance of light of 0.02 or less.
226. (New) The method of claim 219 wherein:  
the first dimension or the second dimension being 0.05 inch or less; and  
the insect screening having a reflectance of light of 0.03 or less.
227. (New) The method of claim 219 wherein:  
the first dimension or the second dimension being 0.05 inch or less; and  
the insect screening having a reflectance of light of 0.02 or less.
228. (New) The method of claim 219 wherein:

the first dimension or the second dimension being 0.04 inch or less; and  
the insect screening having a reflectance of light of 0.03 or less.

229. (New) The method of claim 219 wherein:

the first dimension or the second dimension being 0.04 inch or less; and  
the insect screening having a reflectance of light of 0.02 or less.

230. (New) The method of claim 219 wherein:

the first dimension or the second dimension being 0.05 inch or less;  
the elements having a diameter less than 0.006 inch; and  
the insect screening having a reflectance of light of 0.03 or less.

231. (New) The method of claim 219 wherein:

the first dimension or the second dimension being 0.05 inch or less; and  
the elements having a diameter less than 0.006 inch.

232. (New) The method of claim 219 wherein:

the first dimension or the second dimension being 0.05 inch or less;  
the elements having a diameter less than 0.006 inch; and  
the insect screening having a reflectance of light of 0.02 or less.

233. (New) The method of claim 219 wherein:

the elements having a diameter less than 0.006 inch; and

the insect screening having a reflectance of light of 0.03 or less.

234. (New) The method of claim 219 wherein:

the elements having a diameter less than 0.006 inch; and

the insect screening having a reflectance of light of 0.02 or less.

235. (New) The method of claim 219 wherein:

the elements having a diameter of 0.005 inch or less; and

the insect screening having a reflectance of light of 0.03 or less.

236. (New) The method of claim 219 wherein:

the elements having a diameter of 0.005 inch or less; and

the insect screening having a reflectance of light of 0.02 or less.

237. (New) The method of claim 219 wherein:

the first dimension or the second dimension being 0.05 inch or less; and

the elements having a diameter of 0.005 inch or less.

238. (New) The method of claim 219 wherein:

the first dimension or the second dimension being 0.05 inch or less;

the elements having a diameter of 0.005 inch or less; and

the insect screening having a reflectance of light of 0.03 or less.

239. (New) The method of claim 219 wherein:  
the first dimension or the second dimension being 0.05 inch or less;  
the elements having a diameter of 0.005 inch or less; and  
the insect screening having a reflectance of light of 0.02 or less.
240. (New) The method of claim 219 wherein:  
the first dimension or the second dimension being 0.04 inch or less; and  
the elements having a diameter less than 0.006 inch.
241. (New) The method of claim 219 wherein:  
the first dimension or the second dimension being 0.04 inch or less;  
the elements having a diameter less than 0.006 inch; and  
the insect screening having a reflectance of light of 0.03 or less.
242. (New) The method of claim 219 wherein:  
the first dimension or the second dimension being 0.04 inch or less;  
the elements having a diameter less than 0.006 inch; and  
the insect screening having a reflectance of light of 0.02 or less.
243. (New) The method of claim 219 wherein:  
the first dimension or the second dimension being 0.04 inch or less; and  
the elements having a diameter of 0.005 inch or less.

244. (New) The method of claim 219 wherein:
- the first dimension or the second dimension being 0.04 inch or less;
  - the elements having a diameter of 0.005 inch or less; and
  - the insect screening having a reflectance of light of 0.03 or less.
245. (New) The method of claim 219 wherein:
- the first dimension or the second dimension being 0.04 inch or less;
  - the elements having a diameter of 0.005 inch or less; and
  - the insect screening having a reflectance of light of 0.02 or less.
246. (New) The method of claim 219 wherein the elements are glass fibers, metal, metals, or polymers.
247. (New) The method of claim 219, wherein the elements include a coating.
